colourgalv[®]

protection and colour

Colourgalv provides the best protection for steel with the aesthetic properties of colour. A two part product consisting of a hot-dip galvanized primer and an electrostatic powdercoat top coat. Protection and colour for steel.

colourgalv[®] anti-graffiti

Provides enhanced protection against markers and aerosol paints and is tested to the London Underground standard.

colourgalv[®] anti-bacterial

Reduces bacterial growth by 99.9%, including MRSA and e-coli. Ideal for hospitals and children's nurseries.

colourgalv[®] marine

Provides all the benefits of colourgalv in harsh marine environments, including fully submersed products.

colourgalv[®] warm to touch

Gives the colourgalv finish a warm-to-touch feel. Ideal for retirement homes and children's nurseries.

colourgalv[®] stainless

All the benefits of colourgalv combined with the aesthetic appeal of stainless steel, at a quarter of the cost.

colourgalv[®] arkitekt

This season's must have architectural colours, chosen by architects and designers.

galvanize[®]

Hot-dip galvanizing has proven to be the very best corrosion protection for steel, creating a harder-than-steel sacrificial alloy lasting between 50 and 100 years.

powdercoat[®]

Electrostatically applied polyester powdercoating gives steel and aluminium a beautiful, coloured or textured finish.

When you want your product coated in a hurry we provide an express 24hr service, whether for galvanizing, powdercoating or for Colourgalv.
