**FIND**  
PROFESSIONAL SITE INTELLIGENCE

### FIND website

Launched this month, this one stop shop lets you retrieve information from the Land Registry, English Heritage, LA's, English Nature and the Environment Agency. For as little a £1 a search on a pay-as-you-go basis and with a user friendly format, it makes light work of site research. [www.findmaps.co.uk](http://www.findmaps.co.uk)

### Highland Colourgalv

Galv steel – your architectural inclination is to leave it as is, but in public places, it's unlikely the skate boarders will, and skin wounds can quickly turn to eyesores. These paint coatings come in any RAL colour and to really sweeten the aesthetic pill there's even a Hammerite finish. [www.higalv.co.uk](http://www.higalv.co.uk)

### Galvanisers Awards

Speaking of galvanising, 22 April is the deadline for entries to the 2009 Galvanisers Awards, with over £3,000 worth of prizes. Recent prizewinners include ABK, Tonkin Liu and Walter Mienteth Architects. Projects must be completed after 1 January 2007.

### Detail Editions: Acoustics and Sound Insulation

Given the importance of good acoustics in hospital, school and office design, a general grasp of its principles by architects is vital. Filled with its trademark big scale detail drawings, its a useful office handbook for acoustic factors in design. [www.detail.de](http://www.detail.de)
